

BACK TO SCHOOL JUNE 2015

By: Teacher Jean Cabigon

The students had fun during the school opening when we had young professionals as visitors during the start of our Career Week. They were introduced to different professions this time. The Career Week was celebrated along with the Back to School activity because of the visitors' presence. The kids were blessed and enjoyed the presence of the young professionals coming from

Living Word Christian Churches of Cebu who shared a lot about their experiences in their fields of specialization. The team came up with an idea of having a pantomime skit to make abstract concept clear and vivid. They were successful for majority of the kids imitated them.

We are blessed with a total of 63 academy students from Day Care to Level V and 37 adult learners from our Bible school and ALS this year. One of the junior students was also introduced as part of the school support staff since he will be assisting in the Day Care department.

Prior to the giving of the new sets of uniforms which includes underwears, socks, T-shirts, skirts/pants, footwear and school supplies, the kids had their bath and "oplan alis kuto" in the river. They were very excited to use shampoo and bath soap again since they missed it for 2 months during summer vacation when we did not have class. Excitement and fun were very evident on their faces. They really loved the care that the team gave them. Thanks to the donors and

sponsors of the above-mentioned items. You just don't know how much you made them glad.

The event was culminated with a simple "salo-salo" which was enjoyed by both the academy and ALS students. Academy parents did the cooking as their counterpart for the free education of their children. May both the parents and the kids continually see the value of education and how it will affect their future. Please do continue to pray for them and for the workers as well.

Glory be to God for what He had done and what He would still be doing.
